DAILY PITTSBURGH GAZETTE.

SATURDAY AFTERNOON, NOVEMBER 30.

TWEEDLEDUM AND TWEEDLEDEE.—The partisans of the President seem to make a very nice distinction about the removal of Mr. Duane.—They declare that he was not removed because he would not remove the deposits, but that he had made a promise to resign if he did not consent to remove them, and that he was removed because he did not resign.—It seems, then, that an attempt was made to *force* him to *go out voluntarily*, and, as he would not be *forced* to *go out voluntarily*, why, then, they just—*forced him out*—that's all.

☞We have had a good deal of rain, which, with the snow on the mountains, will give us a considerable fresh—the rise has already commenced. The canal is in fine order, and business good.

SYCOPHANCY.—The following paragraph, from a M'Kean paper, displays the true spirit of parasitism.—It seems as if the only contest between the two sections of the Jackson party, was as to which could display the most servile and adulatory spirit. General Jackson, it is asserted, will be gratified with the promotion of General M'Kean—this, no doubt, is intended as an overwhelming argument with the Jackson members of the legislature.

—

Some people have got it into their heads that by praising Mr. Van Buren and abusing Gen. M'Kean, they gratify the feelings of General Jackson, and thereby get into favor at Washington.—These men will soon find their mistake; but so late, however, that they will render themselves ridiculous, and must either join the federal opposition, or come back into the democratic ranks. We speak *knowingly* when we say Gen. Jackson *will be as much gratified with the promotion of General M'Kean as of any other man.—Northern Banner.*

NEWS BY THIS MORNING'S MAIL!!

From the N. Y. Journal of Commerce.

LATEST FROM GIBRALTAR.

We are indebted to Capt. Jennings, of the brig Marcellus, for a Gibraltar paper of the 12th ult.—The only news which it contains is the following:—

CHOLERA.—The last case in Huelva terminated in death, on the 30th September.

To this information, an article from that town, dated the 3d inst., adds that the total number of patients, during the prevalence of the Epidemic, amounted to 855, of whom 274 died, and 581 recovered.

New cases in Seville, on the 4th inst. 608; deaths 207, besides 2 in Triana.

The Attachment Case at Richmond.—The judicial opinion of Judge Brockenbrough of Richmond, on discharging from custody the editor of the Whig, who had been attached for contempt, in not obeying the subpœna of the Circuit Court of Alexandria to appear and testify, is published at length in the Richmond papers. On reading it carefully, we believe the following to be the material points of law:

1st. The Courts of the United States may, under the act of 1793, issue *subpœnas* for witnesses in any district, to run into any other district.

2d. Courts of the United States have, under the constitution, the right to punish by attachment, for contempt of process,—but this cannot reach beyond their particular jurisdiction; the mere service even of a subpœna, in such cases, being under an express enactment of Congress.

3d. The Circuit Court, therefore, in the absence of all authority by law of Congress, cannot attach for contempt, beyond the State in which it is sitting.

These grounds were sufficient for the discharge of the attachment, but the judge argues further, that under the constitution of the United States, the laws organizing the courts in the District of Columbia, and the twofold character of their jurisdiction, as federal and municipal tribunals, the Circuit Court of Alexandria had no right to issue a *subpœna* to testify in the case.

He considers the Circuit Court of Alexandria as exercising two distinct sets of powers, which are to be judged of and defined according to the subjects upon which they are exercised. When the States of Maryland and Virginia ceded their jurisdiction, and the State laws were re-enacted on the authority of Congress, the municipal jurisdiction which was conferred upon the Courts of the Districts could not exceed that of the municipal Courts of the ceding States, to which they became, in effect, foreign tribunals. If Congress subsequently conferred federal jurisdiction upon the same courts, instead of establishing distinct courts, such a measure could not constitutionally confer the right of using the federal powers, in cases strictly municipal. Those powers and rights are as strictly confined to cases and occasions, growing out of the grants of the constitution to the Federal judiciary, as though the courts were entirely different agents.

Acting, therefore, as a Circuit Court of the United States, under the laws of the United States, in a federal case, the Court of Alexandria might issue a subpœna to Richmond, but could not compel obedience to it, by attachment for contempt.

Acting as a Circuit Court for the District of Columbia, under the laws of Virginia, or Maryland, adopted as the municipal law of the District, the Court could neither issue *subpœna* nor *attachment* in Virginia.

The case of Pleasants, coming under this description, the discharge from attachment was placed upon both grounds.

A preliminary question was started, whether State Courts could take cognizance, by the process of *habeas corpus*, of the legality of an arrest made by authority of a Court of the United States—which Judge Brockenbrough decided in the affirmative.

The opinion is of considerable length, but the points made are, we believe, compendiously summed up in the foregoing paragraphs.—*Baltimore American.*

Stolen Goods by the Cargo.—Three of the Police Officers, Messrs. Homan, Merritt, and Sparks, having for several months pass suspected that John Smyden, master of the scow Lyon, carried on a trade in stolen goods between certain places up the North River and this city, went on board the scow, on Wednesday evening, searched it, and discovered a considerable quantity of stolen property, consisting of Shoes, Teas, Soap, Raisins, and different sorts of dry goods, which they conveyed to the Police Office, accompanied by an accomplice named James Mullooney, whom they arrested. In the course of yesterday, a man who heard of the prisoners' being arrested, came to the Police Office, and stated that, in the course of last week, the store of a person in Glasgow, Ulster county, had been broken open and robbed, and on further inquiry it turned out that the Dry Goods found on board the scow formed part of the property stolen from the store. It has also been ascertained that the Tea was stolen from a Canal Boat at Troy. It is thought a very considerable traffic has been for some time carried on between a gang of robbers up the North River and receivers of stolen goods in New York. It appears that the proprietors of the scow were altogether ignorant of Smyden's character, and gave every facility to the Police Officers to recover the stolen property and arrest the prisoners.—*Jour. of Com.*

Mrs. Yohe's North American Hotel.—This commodious and fine establishment has added another item of value to the improvements of our city, and an adorning to the street upon which it fronts. Its position is a delightful one. Its front on Chesnut street is more than fifty feet—and its depth more than two hundred feet, reaching from Chesnut to George street.

The dining room is one hundred feet long, and thirty two feet wide. It is well ventilated, and warmed most agreeably by furnaces, in the basement story. There are eight spacious parlors—and one hundred lodging rooms, besides ample accommodations for servants. The parlors are fitted up, and finished in modern style, and with great taste and elegance. The chambers are, in all respects, delightful, and lack no convenience whatever. The beds and bedding are entirely new. Those who prefer coal, can have it; and those who prefer wood, can also be accommodated, as some of the chambers have grates for coal, and some fire places for wood. Water from the Hydrants is conveyed all over the building—and a boiler for heating it in ample quantities, occupies a place in the fourth story. The weary traveler may, without leaving the premises, enjoy the luxury of bathing.

Two well provided bars, occupying separate places, will be always furnished with the best.—One in the basement, the other on the first floor. A fire proof room has been prepared, to contain money, or valuable effects of travelers, or boarders.

Mrs. Yohe would seem to have prepared this great establishment for the purpose of setting off, to the best advantage, the thousands of comforts for which our city is distinguished.

In addition to the accommodations of this Hotel, is a large and commodious reading and news room.—*Philadelphia Herald.*

Business Matters.—It is appropriately observed in Levy's last Price Current, that the Branch Bank's ceasing to deal in foreign exchange will for some time affect the market here, and lower the price of produce. In truth, this will be a serious matter; for, the proscribed bank must begin to call in its debts at the same time that it is forced to leave off taking our merchants' bills on Liverpool, London, &c. In six months an adequate substitute cannot perhaps be provided. Meanwhile cotton to the value of 7 or 8 millions dollars will come to market; and sure we are, that all the local banks cannot so extend things as to negotiate the necessary drafts.

Add to this, that the U. S. Bank may claim of government 1,658,000 dollars for bonus and for protested draft on France. Then, again, the depreciation of stock, by the manifesto and removal, is estimated to exceed 1,000,000 dollars. How wisely Duane, M'Lane, and Cass, acted, may be judged from all this.—The President's most favorite advisers have done incalculable mischief to the currency, the business and interests of the country. The South and West will suffer most.—*N. Orleans Bulletin.*

"*American Almanac and Repository of Useful Knowledge, for the year* 1834."—We are indebted to Messrs. *Carey, Hart & Co.* for this very useful volume. It contains beside the Calendar, Celestial Phenomena for the year 1834; meteorological information; a miscellaneous department; a list of the members of the first colonial Congress, and of succeeding Congresses; an account of the several departments of the General Government, and of the States; British American Provinces; statistical view of the Globe, &c. In short, its contents will be found valuable to all classes of the community.—*Balt. Chron.*

We are glad to see that Mr. Duane, in his "*Card*," considers the controversy into which he has been drawn, as between him and the President. What disclosures it will draw forth, will of course be known in due time. That the appearance of his letter to some western friend, which was probably published without his knowledge, furnished the President, or his confidential advisers, an opportunity to come out just before the meeting of Congress, with the hope of making an impression against the discharged Secretary, who it was natural to suppose, might in the course of the session, be called upon to testify in relation to the events which have recently occurred. To discredit him as a witness, by charging him with faithlessness, and dishonorable conduct—with having violated his solemn written pledges,—and this coming from so high a source, might be supposed likely to be serviceable in the adjustment of the questions that may be expected to arise during the next session of Congress. The President's counsellors and directors know very well what advantages are often gained by taking time by the forelock. Forestalling public opinion, creating prejudice, exciting resentment, are among the arts of politicians; and the men alluded to have been too long engaged in their calling, and are too apt scholars, not to avail themselves of so good an opportunity as the publication of Mr. Duane's letter afforded them, to take their ground, and prepare the public feelings for the contest which lies but a short distance before them.—*N. Y. Dai. Adv.*

The Albany Daily Advertiser says that Mr. Butler, the new Attorney General, goes to Washington "a virtuous, candid, and honorable man." The Evening Star, with characteristic promptness says—"We advised him to make haste back."—*Commercial Herald.*

Mr. Catlin's Gallery.—Yesterday afternoon we visited Mr. Catlin's Gallery of Indian Portraits and scenes on the Missouri and Mississippi.—We have rarely seen a more interesting exhibition. The number of portraits exceed one hundred, and represent the sons of the forest in the native and unadulterated costumes of their respective tribes or nations. Mr. Catlin's portrait of the celebrated Black Hawk, we heard pronounced a very striking likeness, by a number of persons who had seen him in this place; and several other likenesses were instantly recognized by a gentleman who has been much among the Indians of the "For West." The admirers of the fine arts could not spend an hour more to their gratification than in visiting Mr. Catlin's Gallery.—*Louisville Her.*

Eighth Senate District.—It is with great satisfaction we find by the Argus of yesterday, that Mr. Tracy, the able Senator from Buffalo, *has* been re elected, notwithstanding the previous notes of gratulation on the supposed election of one Mr. Jones of *the* democracy. Bating his Antimasonry, Mr. Tracy is one of the ablest men of our State, and as a lawyer his services in the Senate are of great value.—*N. Y. Amer.*

The comparative indifference with which the last election was viewed in this State, and the erroneous conclusions which they are liable to fall into, who, from the result of that election, argue as to the future, are made manifest, by the annexed article, from the Albany Evening Journal:

"The official returns of election in the Western counties, show that the Regency Tickets were not carried, by an increase of Votes, but because Anti Masons remained at home. In Monroe county, the vote is 1,900 less than was given at the former Election In Ontario, the disparity is even greater, and although the Regency ticket is elected, by about 200, it falls just about that number short of the vote it received last fall, when the Anti Masonic Ticket was elected by about 2,000! In Chenango, the Regency Ticket is elected by 1,100, and yet it did not receive as large a vote, by 200, as was given for the same ticket last fall."

The Richmond Whig of Wednesday recurring to the rumor, noticed by the Enquirer of that city, of a purport to rescue Robert B. Randolph says:—

"We presume the rumor alluded to, was without foundation, and one of those which a state of public excitement invariably engenders. We are sure that Mr. Randolph wishes, and his friends contemplate, no such proof of ill judged affection.

We have heard the rumor in another, and much more reasonable shape; not that Mr. Randolph was to be rescued from *jail*, but that he would be rescued, provided an attempt was made to transport his person to Washington. With what reason we know not—we hope with none—but it has been and is reported, that it was in contemplation, having secured his person by the attachment for *debt*, to transfer it to Alexandria, where punishment could be inflicted for the assault upon the President. It having been decided by the highest authority that Mr. Randolph could not be legally apprehended for that offence in Virginia, and it being the universal persuasion, that if once in the clutches of the authorities of the District his punishment would be merciless, a rescue, under such circumstances, would be a very different affair from the one supposed by the Enquirer. The popular, act in such case, would not be in derogation, but in maintenance, of adjudicated law. It would be equally justified by respect for the laws and by humanity; and for our own part, we are bold to say would, in our opinion, be an act incumbent upon freemen."

We know the fact, says the New York Evening Star, that certain leaders of the Kitchen Cabinet wrote to their brokers in this city to sell stock in the U. States Bank, on the ground that the deposits would be removed, long before the President had decided on their removal; which plainly proves that the plan originated with the K. C. and the Albany Regency, considering the consent of the President as a matter of course after they had made up their minds.

The Philadelphia Gazette, in republishing the account of Mr. Clay's reception in this city, adds —"Considering, also, that Mr. Clay *is not* a Candidate for the Presidency, *and not likely to be*, these marks of respect show conclusively how fully his worth, as the great advocate of liberty, is appreciated."

We are requested, by a number of Mr. Clay's friends, to state that the above declaration is altogether gratuitous, and that the Philadelphia Gazette has no authority to speak on this subject for the friends of Mr. Clay.—*Poulson.*

Adulation.—There is a moral in the following, from the National Banner, if our political opponents only find it out:—

"I am a god," cried Alexander—"Thou art more than a god," echoed his flatterers. Heaven revenged the blasphemy—*Alexander died raving mad, and his flatterers became slaves.*"

Capacity of Canal Boats.—A considerable increase has taken place of late in the size of canal boats. A boat carrying fifty four tons of coal, descended our canal last week. The average capacity of our canal boats, built a few years ago, did not exceed thirty tons, and there are some which carried no more than twenty five tons; but here, in the instance mentioned, is an increase of nineteen tons! Now, if the capacity of this boat should be made the standard in the construction of boats hereafter, we conceive that an important benefit would result to all parties interested, boat owners, boatmen, and shippers.—*Miner's Jour.*

Extract from a letter, dated

"NEW ORLEANS, Nov. 9, 1833.

"By two Choleras and two Fevers, N. Orleans has lost TWELVE THOUSAND PERSONS IN ONE YEAR—say one fourth of its population! Still it is *gay busy* New Orleans.

"Cotton is falling to its proper value, and we look forward to an active season. The sugar crop looks well, though this is the critical period."

NASSAU, (N. P.) Oct. 23.—The Spanish ship Europa, which sailed to day for Havana, came here for and is loaded with Iron Pipes, cast in the U. States, for the purpose of conveying pure water into the city of Havana, the vessel which was conveying them having been wrecked among these Islands, and the pipes saved and brought here by the wreckers.

Congress.—The first session of the new Congress commences on Monday next. For several days past, the northern and eastern members have been passing through this city, on their way to the capital. A stormy session is anticipated; and we have made arrangements to have a private correspondent on the spot—a man of talents and high character—whose statements and representations may, in all cases, be relied upon. The Senate will probably be opposed to the President; but the lower cabinet calculate on a very decided Majority in the House, of perfectly subservient men. One of the first measures in contemplation, we have good reason to believe, will be an attempt to nullify the election of Gales & Seaton as printers to the House of Representatives—The last of the Cæsars, it is said, has raised his arm and vowed in his peculiar manner that it shall be done. We shall see.—*N. Y. Com. Adv.*

African Education.—We are happy to be able to announce that Gen. Jones, of the city of Washington, has liberally offered his plantation, about two miles from Arlington, in the District of Columbia, for the purpose of educating African youth. To give them good practical education is of the first importance towards securing success to the Missionary cause in Africa. As the climate of that country is so fatal to the whites, our hopes of their civilization and christianity must rest upon educated men of the African race. This is an object which no philanthropist can view with indifference—and as our leading abolitionists are known to be wealthy, we hope they will not suffer this opportunity to escape, but will contribute liberally from their abundance to this valuable purpose. It is important that the Africans should be educated, whether they go abroad or remain at home. About two thousand dollars are wanted to enable the school to commence under fair prospects of success. It is to be conducted by an Episcopal Clergyman of high character and attainments, and presents a field of benevolence on which we think both Colonizationists and Abolitionists may meet, for the promotion of a great purpose, for which both profess to seek.—*N. Y. Com. Adv.*

A Good 'Un.—Doctor Sutherland, of Philadelphia, has been esteemed as rather a slippery politician—whether justly or not, it is not our province to decide. He recently resigned his seat in the next Congress, and accepted the office of Judge. Suddenly he resolved to relinquish his Judgeship, for the purpose of being re-elected to the congressional seat he had just vacuated. His re-election was secured by the friends of the Vice President. Thus much for exordium: now for the anecdote. "Doctor," said one of his political friends, in accosting him the other day—"you are a Van Buren man, of course?" "Too much of a Van Buren man to commit myself"—was the characteristic reply.—*N. Y. Com. Adv.*

The Philadelphia and Columbia Rail Road.—We had the pleasure, about a week since, of traveling over 22 miles of this road, extending from the head of the inclined plane, westward. Every thing pertaining to the road appears to be of the very first quality and material, although we were told that many parts of that more recently constructed still exceeds this portion in material and finish. The engine house, at the head of the inclined plane, is in a state of great forwardness, and the plane itself will soon be ready for use. The bridge over the Schuylkill will be passable by the middle of December, for cars on a single track, as all that is required to finish it is, the masonry on one pier, now above water, and a part of the frame work; and we are assured that a car will pass about the same time, (unless a very deep snow should prevent,) from Philadelphia to Columbia—so that next spring we country folks may visit the city, at a much cheaper rate and in a shorter time than we have heretofore done.

Great credit is due to the perseverance and energy which has marked the course of Gen. W. B. Mitchell, the Superintendent, and Edw. F. Gay, Esq., the Engineer, in the rapid completion of this portion of the public works.—*Har. Chron.*

A ragged militia officer, and still more ragged bandy legged negro, met at the bar of a public house, where the following conversation took place:—"Cuff, you're a good, honest feller, I like to compliment a man what's lived an honest life, if he is black; you'll take a glass of drink with me, Cuff." "Well, Capting, I'se berry dry, so I won't be ugly 'bout it; some niggers is too proud to drink wid millishy officer; but when he sober he jiss as good as nigger, 'specially if de nigger's dry."

THE OCEAN.

I have been on Continents and Isles,
When war and Peace dwelt there;
And wandered o'er the ruined Piles,
And breathed their perfumed air—
But where a scene so wildly grand,
So boundless, or so free,
As where in distance sinks the lands—
The Ocean still for me!

The gilded halls of Kings I've trod,
And mingled midst their crowd,
I've wandered where Alhambra stood,
The beautiful! the proud!—
But not for me are scenes like these,
Nor valley, brook, nor tree,
The sea toss'd bark, the waves, the breeze—
The Ocean still for me!

I've rambled over field and fern,
O'er mountain, vale, and wood;
And hunted 'midst the wildest glen,
And woo'd its solitude—
But give me still, my ocean home;
And ever merry sea:
Contented ever there I'd roam—
The Ocean still for me!

I've been where Earthquakes shook the pole,
Upon the trembling land;
Seen mountains from their bases roll,
And cities crush'd to sand—
As others will, I love the wave,
And its wild revelry;
Home of the daring and the brave—
The Ocean still for me!

CHARADE.

The following piece of poetry is from a new publication. It is a charade on the name of a popular poet.

Come from my First, ay, come!
The battle dawn is nigh:
And the screaming trump and thundering drum
Are calling thee to die!
Fight as thy father fought,
Fall as thy father fell:
Thy task is taught, thy shroud is wrought,
So forward! and farewell!

Toll ye, Second, toll!
Fling high the flambeau's light:
And sing the hymn of a parted soul,
Beneath the silent night.
The wreath upon his head,
The cross upon his breast—
Let the prayer be said, and the tear be shed:
So—take him to his rest.

Call ye my Whole, ay, call
The lord of lute and lay:
And let him greet the sable pall
With a noble song to day.
Go, call him by his name:
No fitter hand may crave
To light the flame of a soldier's fame
On the turf of a soldier's grave!

HOPS—At the commencement of the week there was a good demand, and sales were made at 22 a 23c. for the first sort, cash; since which buyers are not disposed to give over 20 a 21c., at which rates sales we understand have been effected—we therefore quote to day a shade lower than last week.

INDIGO—Holders are firm.

It has rained at last; and the desire of our whole population, hourly expressed and reiterated, is at length gratified. The Levee has commenced again to exhibit its usual bustle and activity—strangers are arriving from every quarter, and another great commercial campaign is about to open.—That every thing wears an appearance favorable to business, is the general remark; and we doubt not that the present season will far exceed, in commercial importance, any that has preceded it.—The Mississippi is at low water mark. The weather is wet and stormy.

COTTON.—Since the receipt of the last advices from Havre, under date of 2d October, and conveying Liverpool dates to 26th September, (together, quoting a serious decline in both markets,) there has been very little done, and that little not made public; indeed, such is the state of things, at this moment, that we have thought it best, (and it accords perfectly with the views of the buyers and sellers) to dispense with all quotation, whatever. At what rate the market will again open, we cannot pretend to say, but it is generally conceded that operations to a fair extent would be made, ranging from 12 a 16 cents per lb., averaging, for fair lots, from 14 a 15 cents per lb. Fine cottons being scarce, it is supposed that they will bring higher prices. From what we have remarked, we venture to say, as our own impression, that holders are willing to recede in their pretensions, and are only waiting for offers to recommence operations, as any disposition to the contrary, would not avail then.

Since making the above remarks, we have learned of a sale of 1,200 bales, selections from good marks, at 15 cts. per lb. This fact will enable our distant friends to draw better conclusions than any circumstance to which we could call their attention.—*New Orleans Price Current, November 9.*

A CARD—TO THE PUBLIC.

THE undersigned, manufacturers of Salt, on the Allegheny, Kiskeminitas, and Conemaugh rivers, in consequence of the *ruinous rates* to which salt has been reduced, during the past year, in part owing to causes which are not likely soon to occur again, have, after mutual advisement, agreed and fixed upon the following prices; below which they will not dispose of the article, at their respective establishments, nor authorize their agents elsewhere so to do; viz:—

$2 per barrel of 280 lbs. of salt;
40 cts. pr. bushel for any amount under 5 bushels;

FAIRBANK'S PLATFORM SCALES.

THESE scales are constructed upon an improved principle; are fitted up with great care by the manufacturers, and warranted to weigh with accuracy from half a pound to 12,000. Being placed in, and forming part of, the floor, the process of weighing is performed with ease and facility, while the space they occupy may be improved as a passage way or for other purposes.

The construction of these scales is such that they are little liable to derangement of wear, and their perfect operation will be guaranteed for any reasonable length of time.

The usual objection, that a new method of weighing cannot be safely entrusted to unskilful hands, is obviated by the use of the improved BALANCE, concerning which are the following remarks in the Journal of the Franklin Institute, of the state of Pennsylvania, for the promotion of the Mechanic Arts, for June, 1833. (Edited by Thos. P. Jones, M. D., late Superintendent of the Patent Office, at Washington, Professor of Mechanics in the Franklin Institute, &c.

"The Messrs. Fairbanks, some time since, obtained a patent for a Platform Weighing Machine, and this mode of adjuating and graduating the Beam of the Balance, and the weights, was devised by them with a view to its employment with the before mentioned machine. We have had an opportunity of examining one of their balances, and have been much pleased with it: this examination, however, was not necessary to the conviction that it possesses a just claim to the character of a real improvement, the whole arrangement being so simple as to enable any person to perceive that it is well adapted to the purpose contemplated, that of facilitating the business of weighing, and more especially of heavy articles."

The subscriber, as Agent, will receive orders for the above Scales, which will be made in this city to order. They can be seen at his Warehouse, No. 84, Front street.

Nov. 8, 1833. MOSES ATWOOD.

SALE OF REAL ESTATE.

THE Subscribers, Trustees of the New Philadelphia Society, at Phillipsburgh, Beaver county, Pennsylvania, offer for sale the following property, to wit:

1	tract of land	containing	330 acres
1	do	do	330
1	do	do	67
1	do	do	7
1	do	do	40
other lots, containing about			6

The above lands lie in one body, fronting about two miles upon the Ohio river—immediately opposite the mouth of Big Beaver creek, and the Beaver Division of the Pennsylvania Canal. The land is rich, and a part of it under a high state of cultivation—its location pleasant and healthy. The improvements upon the same are valuable, including the town of Phillipsburgh, late the residence of Count Leon, and the New Philadelphia Society. The town contains about 40 Dwelling Houses, now in order; some of them brick houses and two stories high. A large and spacious Hotel, a Store house, Church, a number of Shops, for mechanics, Stables, Barns, and other out houses. Also, two large new buildings, lately erected, but not yet finished, one of brick, the other of frame (the latter suitable for a manufactory) a very extensive public garden, and also fruit trees of various kinds. The property has also attached to it the right of a ferry across the Ohio, which is valuable, and becoming more so every day.

The above property is situated in the midst of a wealthy and prosperous country, distant about 28 miles below Pittsburgh, and one mile from Beaver, the seat of justice for Beaver county—and having a view for many miles up and down the Ohio, and of the country to a great distance around.

The subscribers are confident in saying that few situations could be found, presenting greater facilities to the farmer, mechanic, the manufacturer, and others—a soil rich and productive—the neighborhood abounding in coal—well timbered and watered, and, by means of the Pennsylvania Canal, and steamboat navigation, a cheap and ready conveyance to market, and a communication with other places is ensured.

The property is susceptible of divisions into farms, or for the location of new towns, or for the extension of the present one.

Should it not be sold on or before the first day of January next, it will then be offered at public sale, upon the premises, to the highest and best bidder.

It will be sold in a body, or in parcels, to suit purchasers.

Terms of sale will be reasonable.

Information can be had by enquiring of the subscribers, two of whom live in the neighborhood, and one on the premises.

FOR the cure of Dyspepsia, Liver Complaints Jaundice, Cholic, Fever and Ague, Dysentery, Headach, Loss of Appetite, Flatulence, Hypochondria, Hysterics, Dropsical Complaints, and Heartburn, It also prevents all Bilious disorders, and removes habitual Costiveness, Asthma, Strangury, Gravel, Rheumatism, Gout, and Impurities of the Blood.

A person who uses this Medicamentum will not require the use of the lancet, or any means of the healing art. It restores and revives the animal spirits, invigorates the system, removes nervous tremors, obtunds rheumatic and anthritic pains, and prevents their return. It cleanses the stomach of all morbid humors, which cause indigestion, acidities, headach, and lowness of spirits; cures all bilious disorders, and all cholics of the stomach and bowels, almost immediately; inspires cheerfulness; gives comfort to the dropsical; takes away palpitation of the heart; gives circulation to the blood; restores bloom to the sallow or sickly cheek, and plumpness to the meagre habit; purges without pain, and banishes all cause of fever of every kind. It acts on the stomach, that great reservoir of the human system, a diseased state of which causes all diseases. No alteration in the usual habits of life is required, but the abstaining from distilled ardent spirits.

CERTIFICATE,

From Rev. Derick Lansing, D. D., Pastor of the Second Presbyterian Church in Utica.

Utica, Jan. 6, 1830.

To Dr. Hitchcock.—Dear Sir: I have always been one of the number of those who have placed little confidence in *nostrums* or *specifics*, and for this reason, although I saw your advertisement of the Welch Medicamentum, I could not bring my mind to consent to use it. My sufferings, from indigestion, during the past summer, were so severe, as materially to affect my comfort, and my capacity for usefulness. I have reason to thank you, sir, that, on hearing of the state of my health, you kindly sent me your Medicamentum. I have taken it faithfully, and with entire success. I have not been visited with one of those turns of distress, which before were weekly periodical, since I began to take your valuable medicine. Could I receive the same relief which I have hitherto experienced, on condition of taking it for life, I should cheerfully comply with such condition. Your's, very truly, D. C. LANSING.

ANTI-DYSPEPTIC ELIXER.

ONE of the most agreeable and efficacious Medicines ever discovered for the permanent cure of those chronic states of derangement of the stomach, constituting that miserable disease called Dyspepsia.

The basis of this Elixer s vegetables, and perfectly innocent in its operation; it destroys that sour state of the stomach, the instant it is taken, and stops the morbid secretion, by giving strength to the muscular fibre of that important organ, by which means the peristaltic motion of the intestines is increased, and the costiveness obviated; a new action is given to the system, which puts an end to a train of distressing nervous sensations.

Another form of the disease in which the Elixer is admirably calculated to relieve, is the decline of fever, where the stomach will not bear the ordinary strengthening medicines indicated in such cases, it has the surprising effect of giving vigor, and restoring the natural secretions of the body, without increasing the febrile state. Not the least danger is to be apprehended from exposure to cold, while under the use of this medicine, nor will it interrupt necessary employment of the patient a single hour.

☞A number of cases of cures performed by the Anti-Dyspeptic Elixer in the vicinity of Pittsburgh can be given.

COMPOUND SYRUP OF LIVERWORT,

A SAFE and Valuable Medicine for Coughs, Spitting of Blood, Consumption, and Liver Complaints.

Most of the medicines made use of for the above diseases are of a stimulating nature, composed generally of Resins and Balsams, in alcoholic solutions, which, although sometimes giving temporary relief, in almost every instance where they are freely used, aggravate the disease, and reduce the strength of the patient.

This article possesses superior advantages over these preparations, its action being of a tonic, invigorating and strengthening nature, thus overcoming the disease by promoting expectoration, and gradully increasing the strength of the patient, and thus, without being attended with any unpleasant effects: it also agrees with the stomach, in a cases, and is a pleasant medicine to take.

PATENT PLANING MACHINE.—The right to use this valuable machine, invented and patented by William Woodworth, and known as Woodworth's Patent Planing Machine, may be obtained on application to the subscriber for the counties of Allegheny, Butler, Beaver, Washington, Green, Fayette, Somerset, Cambria, Indiana, Jefferson, Clearfield, M'Kean, Warren, Venango, Mercer, Crawford, and Erie, in the State of Pennsylvania. Rights to use the machine in that part of the United States, named above, will be sold by the single county or in larger districts. As it is presumed that no one will purchase without seeing the machine at work, a description of it is deemed unnecessary. Should any person, however, wish to purchase, and find it inconvenient to visit the places where it is in operation, a machine will be furnished, warranted to plane, tongue and groove, and bring to an exact width and thickness, a white pine board of 12 feet long, and of any width from 1 to 14 inches, in one minute and ten seconds, or an oak board of the same dimensions in 2 minutes and 10 seconds. Machines may be seen at work in the cities of New Orleans, Washington, Philadelphia, New York, Boston, and others at the south and east, at Wheeling, Virginia, and at the saw mill of Messrs. Irwin & Herron, in this city.

Persons desiring to purchase will have the certificates of scientific and practical men who have seen it at work, in the different places in which it has been put up, forwarded to them. They give their opinion as to the great value of the invention, state the time they have seen boards dressed by this machine, and describe the quality of the work as compared with that performed by hand labor.
